

Drive value from your Office 365 investment with PS+

Managing projects in Office 365 is the obvious PPM solution for many businesses. PS+ extends the capabilities of Project Online and provides an enhanced "Out of the box" solution that is easy to deploy and drives real value for your PMO.

97%

of organisations believe project management is critical to business performance and organisational success.

In order to deliver projects on time, and manage your resources you need help...

80%

of project management executives don't know how their projects align with their company's business strategy.

33%

of projects fail because of a lack of involvement from senior management.

50%

of all Project Management Offices (PMOs) close within just three years.

38%

of large projects (over \$10 million) fail to meet their goals.

Deploy a PPM solution that has the capability to plan, execute and deliver.

Microsoft Project Online provides many of the capabilities you need

Planning & Collaboration

Familiar scheduling features like Gantt charts from industry standard Microsoft Project Professional and collaboration delivered using SharePoint based Risk, Issue and Document management significantly reduces training time with simple UI.

Decision Making Capability

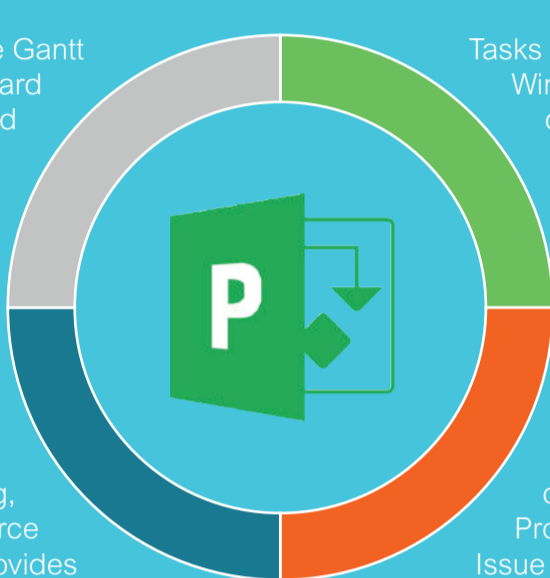

Project Online templates provide a single source for planning, delivery and resource information, which provides the capability to make informed decisions proactively.

End user access across devices

Tasks and Timesheets are available on Windows, iOS®, and Android™ devices, so team members can update tasks on their device of choice and PowerBI can provide dashboards and reports on the go.

Standards & Templates

Project Online provides the capabilities to integrate your Project Lifecycle; Schedule; Risk, Issue and Document logs into templates which enables governance and standardisation.

PS+ helps you drive real adoption and value from Project

PS+ extends Project Online

Get started immediately with bespoke templates and processes - PRINCE2, PMI and Agile methodologies are catered for right out of the box.

Templates

Industry Standard PRINCE2, PMI and Agile templates (that can be easily tailored to your organisation standards)
